

Ogier are excited with representatives from Guernsey Finance and the island's insurance industry to present updates on Guernsey's insurance services at the Ogier sponsored Champagne Reception in Monte Carlo.

The event will be held in the same week as [Les Rendez-Vous de Septembre](#) (9 - 13 September), providing an opportunity for Guernsey to be at the centre of discussions during this week-long congress. Here we will raise awareness of Guernsey's financial services offering, particularly in relation to its insurance and reinsurance sectors.

Rendez-Vous has established itself over the past 65 years as the key annual event for major players in the global reinsurance market, attracting lawyers, bankers, accounting and rating companies, and specialist journalists. It also marks the beginning of the annual negotiation process prior to the renewal of reinsurance treaties.

Guernsey's insurance sector is pioneering and innovative, with the jurisdiction boasting a position of leadership in the structuring and execution of alternative risk transfer. Our delegates are looking forward to promoting Guernsey's offering and connecting with insurance professionals over the course of this week.
