

The Fraud, Asset Tracing & Recovery conference aims to bring together the most-in-demand fraud litigators who are recognised across the globe as the “go-to” experts when handling hugely complex, multi-jurisdictional cases in the field of commercial litigation, civil fraud, corruption, business crime and insolvency. Attendees are able to deepen their knowledge of enforcement issues, criminal and civil remedies and the latest asset recovery tools and techniques.

Partner Christopher Levers will join a panel on Day 2 titled "Evolving Crypto Fraud Schemes: The Variety of Substantive Claims Relating to Crypto Fraud, the Potential Pitfalls and Strategic Considerations". Senior Associate Victoria King will also be attending.

Contact Chris or Victoria if you would like to connect.
