

Ogier is a sponsor for the NPL Europe conference in London. Now in its 14th edition, the conference is Europe's largest and most diverse event for the European Non-Performing Loans market. In 2023, this event attracted more than 400 delegates from 200+ companies including major international Funds, Banks, Servicers, Advisors and Technology companies.

With macroeconomic factors accelerating defaults, central Banks and the ECB urging an increase in provisions, a largely flat transactions market but with new opportunities arising with the emergence of a large and active secondary market, **there is much to discuss concerning the future of the European NPL and non-core assets market.**

Ogier attendees include Ireland Partner Ronan McGoldrick, Ireland Ogier Global Director and Head of Capital Markets Michael Carroll and Ireland Managing Associate for Banking & Finance Eoin Hamill.
