

Ogier designs market-leading corporate administration portal for clients

News - 31/05/2022

Ogier's corporate administration business, Ogier Global, has launched a market-leading client portal offering real-time, secure access to a personal library of documents, as well as a collaborative space for board packs and more.

Ogier Connect is an easy-to-use product that provides clients with round-the-clock access to the latest statutory documents, registers of ownership, board packs, and invoices. It uses leading encryption technology for client security and peace of mind.

The portal's client dashboard allows users to navigate between legal entities, filter and search documentation, check the latest notifications and connect with their Ogier Global relationship team.

Unlike industry standard client portals, which use data room technology, Ogier Connect receives information directly from Ogier Global's administration servers, generating real-time documents and removing time lags. The product can also generate dynamic charts and offers the ability to download and print, removing the need for separate software.

In addition, Ogier Connect offers a convenient boardroom solution, allowing directors to access and collaborate on board packs in a secure space.

"As a business, we're always looking at how we can best use technology to empower our clients and Ogier Connect has been designed with that in mind. Being able to provide clients with the latest up-to-date documentation sets Ogier Connect apart, as does our focus on using market-leading encryption to provide outstanding security," said director of Ogier Global in Jersey Lawrie Cunningham.

Ogier Global works closely with Ogier's partner-led legal teams in BVI, Cayman, Guernsey, Hong Kong, Jersey, Luxembourg, Singapore, the UK and Ireland to incorporate and administer a wide variety of vehicles.

In the last 12 months, Ogier Global has also launched [ESG Align](#), an online climate-risk training and compliance tool for asset managers, as well as [Cayman Islands AML/CFT training](#) for staff and directors of financial services providers.
