

Ogier partner Joanne Huckle will join a virtual panel at the Women's Alternative Investment Summit.

The forum promises to be a high-level, content-rich event for women in private equity, venture capital, real estate, hedge funds, real assets, debt, and infrastructure investing: GPs, LPs, and the professionals who advise them.

The event will feature informative sessions and essential networking with senior-level women in private equity and alternative investments. The highly interactive conference features moderated panel discussions, facilitated roundtable conversations, and keynote dialogues followed by discussion.

Please feel free to connect with Joanne via the link provided on the right.
