

Funds experts Walid Sharara and Milan Hauber are attending the conference of AIFMD review organised by the ALFI on 2 february 2021.

The recent European Commission's consultation on the Alternative Investment Fund Managers Directive (AIFMD) review touched upon many topics that have or have not been discussed in previous reports.

ALFI and its working groups have reviewed the document and prepared a concise response to the key aspects that we deem necessary to share with the Luxembourg fund and asset management community.

If you would like to arrange a meeting post-conference with Walid or Milan, please get in touch.
