

INSOL International will be holding its second major virtual conference, delivering for its members three days of content across three different time zones.

Join our Global Partners for your regional session live. Ogier is one of the event sponsors and you are able to catch content after the event, mix-and-match sessions from the main agenda with material from the ancillary sessions.

The virtual programme offers all the breadth and diversity you expect from INSOL, but with the added flexibility a virtual programme brings. Senior practitioners from across the insolvency and restructuring sector will come together to discuss, learn, and exchange knowledge and share their insights on the most pressing topics.
