

Europe's longest-running event focused on diversity in private equity returns to London once again in December. Established in 2014, the PEI Women in Private Equity Forum has driven forward the discussion around diversity in private equity.

Bringing together institutional investors, fund managers and the surrounding industry, the event provides a platform for men and women of all levels to build their network across alternative asset classes.

Sophie Reguengo (Partner) and Kate McCaffrey (Managing Associate) will be attending. Please don't hesitate to get in touch with Sophie or Kate to arrange a meeting.
