

The International Fiscal Association (IFA) is the world's only non-governmental and nonsectoral international organisation dealing with fiscal (tax) matters, with over 13,000 members. Headquartered in the Netherlands, IFA provides, in conjunction with the activities of each country branch, a blend of comprehensive research on international taxation and the development of programmes and initiatives of current practical importance.

The Association has particularly close relationships with the OECD, its sister organisation, the International Bureau of Fiscal Documentation (IBFD), and the European Commission.

Ogier Partners William Jean-Baptiste and Benoît Rose will be attending the IFA event in Berlin between 4 and 8 September. Please get in touch with William and Benoît if you would like to arrange a meeting.
