

Ogier is delighted to be Headline Sponsor at this year's Guernsey Private Wealth Forum.

Building on the theme of 'Families Investing in the Future', this event will continue to explore, through keynote speakers and expert panellists, the importance of the next generation, succession planning, and incorporating new, innovative technologies.

To add star quality to this event, the keynote speaker will be British Astronaut Tim Peake, who was a crew member on the International Space Station from December 2015 to June 2016. For further details [click here.](#)
